DRIVE & DIVE

Buddy Dive Resort is a full-service 5-star PADI dive resort that is ideally located and has all facilities you need for your perfect dive vacation.

Booking our Drive & Dive package ensures you to enjoy the 60 beautiful shore dive sites of Bonaire in the best way. Drive your truck (that comes with your package) through the Drive-Thru filling station to easily pick up your tanks. With this package, you can use as many air or Nitrox tanks as you want.

Right in front of the dock, you find Buddy's Reef. The 24/7 accessible house reef is a great dive during the day and at night. With rinse tanks, a shower, gear rental, and a retail shop right there on the dock, great diving is guaranteed.

Our complete Drive & Dive packages include accommodation, daily breakfast buffet, airport transfers, shore diving with unlimited air and nitrox (plus optional boat dives) and a rental vehicle.

YOUR SECOND HOME

Buddy Dive Resort has accommodations to host single travelers, couples, families, and even larger groups. Our studios, 1-, 2-, and 3-bedroom apartments have air-conditioned bedrooms, a balcony or porch with ocean or garden view, and a kitchen to make your stay as easy as possible so you can focus on exploring the island.

During your surface interval, you can relax on your private balcony or porch, in one of the swimming pools, at one of the raised sand beaches, or spoil yourself with a tropical drink at the pool bar.

Our amazing house reef is just steps away from your apartment. Whether you are looking for a romantic Caribbean vacation or the best resort for your dive shop group trip, Buddy Dive Resort is the place to go!

SAIL AWAY

Boat diving on shore divers paradise Bonaire? Yes, we do! Buddy Dive Resort has got 6 dive boats that go out multiple times per day. The boats depart from the Buddy Dive dock, making the logistics as easy as can be!

In consultation with the guests on board, the crew chooses one of the dive sites that cannot be reached from the shore. How about Klein Bonaire, Rappel, or Country Garden? Another advantage of boat diving is that the professional guides can show you all the well-hidden critters on the reef.

The dive sites are only 5 - 20 minutes away from the resort and the crew will make sure your boat ride is relaxed and comfortable.

Will you join us on our well-equipped dive boats?

HOME IS WHERE THE SNACKS ARE

Buddy Dive Resort hosts two oceanfront restaurants.

At Blennies restaurant, we welcome you for breakfast, lunch, dinner, or just a refreshing cold drink. Relax in the pool bar or enjoy the Caribbean sunset during one of the Blennies theme nights. Blennies is the perfect place to enjoy a good lunch after your watersport activities, enjoy the sun on one of the comfortable beach beds or celebrate the Caribbean evenings with good company and the best burger on the island.

Ingridiënts restaurant offers fine dining with a stunning ocean view. Situated above Buddy Dive Resort's dive shop you can enjoy European-style dishes, with perfectly matched wines in an elegant décor. Ingridiënts restaurant is open for dinner from Thursday to Monday from 6.00 P.M. Choose the 4-course week menu or go for creamy pasta, juicy steak, or fresh local fish.

4-WHEEL D(R)IVE

Buddy Dive Resort has got its own car rental fleet with single and double cabin trucks. When booking the Drive & Dive package, you have your very own rental truck included in your package. This way you can enjoy shore diver's paradise in its best way. There are approximately 60 dive sites that can be reached from shore. Your own rental vehicle gives you the opportunity to enjoy them all!

At Buddy Dive Resorts Drive Thru, you can easily pick up your tanks for shore diving. Drive your truck right into the filling station and load your tanks. There are lockers, rinse tanks and Nitrox analyzers available for your convenience.

NEW SKILLS

At Buddy Dive we value dive training and continuous development of our team, facilities, and our guests. In 2010 we decided to bundle our 30 years of experience and started the Buddy Dive Academy. All the hard work got awarded when the Buddy Dive Academy became a PADI 5-star Career Development Center. Something to be proud of as there are only 100 Career Development Centers worldwide and the Buddy Dive Academy is the only one in the southern Caribbean.

Buddy Dive Academy offers every level of dive training imaginable, conducted in several languages. We start with introductory courses such as Discover Scuba Diving (DSD) and Open Water Scuba certification and offer professional level Instructor Development Courses (IDC) as well. In addition, we offer a variety of continuing dive training; besides the standard PADI specialties, we also offer you the chance to become a tec diver or start your career in diving and become a dive instructor.

YOUR BUDDIES'

Favorites

MARINE LIFE

Bonaire's reefs are home to over 350 fish species and is known for its' great macro-life and many small critters. We love every single reef inhabitant but here are some of our favorites.

- **Blennies** - Over 15 species on Bonaire, many can be found at Buddy's Reef.
- **Frogfish** - Master of disguise, found on sponges and corals, lures its prey with its angler.
- **Turtles** - Common on Bonaire, great to spot while snorkeling or diving shallow reefs.
- **Tarpon** - Our night dive buddies like to hunt in your light while night diving our house reef.
- **Seahorse** - Mysterious sea creatures, hard to find and extra fun to find, the dive team is happy to point them out to you.

THINGS TO DO

Of course, scuba diving is our favorite thing to do and we could do it all day every day, but for the ones who need a break or who do not dive at all, here are our favorite Bonaire activities.

- **Windsurfing** - Lac Bay offers pool-like waters, perfect trade winds and the coolest surf bars to take a lesson or to just watch the pros do their thing while enjoying a drink.
- **Mangrove kayaking** - Let a guide show you the unique ecosystem of our mangroves. Combined with a snorkel tour through the mangrove roots this experience is truly unique.
- **Hiking Brandaris** - For the sports enthusiasts, a hike up the Brandaris hill is a fun workout but the view from the top is absolutely worth it!
- **Sunset sailing** - A sunset sailing tour on the Caribbean Sea with snacks, drinks and friends. Feel the true island vibe.

DIVE SITES

Even though there is not a single dive site we do not like... There are a few sites that stand out and that you don't want to miss...

- **Buddy's Reef** - Right in front of the resort, easy access, huge diversity of species. Bonus: You can see the coral nurseries and transplanted coral of Reef Renewal Bonaire here.
- **Invisibles** - On the South end of Bonaire, sandy plateau, easy access, vibrant and healthy reef.
- **Karpata** - Shallow plateau with a variety of corals, turtles, steep drop-off and amazing topography.
- **Salt Pier** - Dive between the pillars of the salt cargo dock, colorful sponges, shallow dive, lots of marine life.
- **Something Special** - Easy dive at the Kralendijk Boulevard, garden eels, the perfect place to look for critters.

- **Lionfish hunter course** - Learn how to safely eliminate invasive lionfish from the reef. Bonus: you'll get to enjoy your catch for dinner!

RESTAURANTS

Bonaire offers plenty of great places for lunch and dinner. From food trucks to high-end restaurants... you will find it all. Below is a selection of our favorites. Our staff is always happy to help you choose and to make reservations.

- **Ingredients** - Above the Buddy Dive dock, the best view on the island, fine dining, locals' favorite.
- **Rose Inn** - Try true local food like goat stew and iguana, located in Rincon.

- **Capriccio** - Amazing homemade Italian food, along the Kralendijk boulevard, good wine.
- **Blennies** - Located at Buddy Dive Resort, casual beach bar, theme nights like ayce BBQ, swim-up pool bar, and great cocktails.

THINGS TO PACK

What to bring on your dive trip to Your Buddies on Bonaire? You are going to need your dive gear to enjoy all 80+ dive sites on Bonaire but here are some extra items that we recommend bringing.

- **Dive boots** - Since Bonaire is shore divers paradise, you will most likely start many of your dives from shore. Decent boots will protect your feet from sharp rocks and sea urchins.
- **Water bottle** - Single-use plastics are not allowed on Bonaire and you can drink the water from the tap. Bringing your own bottle will help you stay hydrated and eliminate the use of plastic water bottles.
- **Reef-safe sunscreen** - The sun is always shining on Bonaire and it is important to protect your skin. Sunscreens that are harmful to the reef are not allowed on Bonaire so make sure to bring reef-safe sun protection or to buy some in our shop.
- **Reef Renewal Bonaire wish list items** - Certain items that our friends from Reef Renewal Foundation Bonaire need for their work are not available on Bonaire. Check out their website to see what to bring to help.

The Murphyn Henar Foundation was established to honor Murphyn, who worked as a Divemaster for Buddy Dive from 1993 until his passing in 2019. He was known for his bright mood, endless patience, and knowledge of diving on Bonaire. He was a mentor for many and he still is a true icon on Bonaire.

The mission of the Murphyn Henar Foundation is to give young adults on Bonaire the opportunity of a job in the dive industry. By training these young people, who might not have the funds to do so themselves, we want to give them a future in the thriving dive industry on Bonaire. This way, we continue Murphyn his role within the Bonaire society. The role of a mentor who passes on knowledge with great passion and enthusiasm.

Diving on Bonaire

With as many as 60 officially listed dive sites on Bonaire and another 20 dive sites on Klein Bonaire, the island truly is a Divers Paradise!

Diving on "shore diving paradise" Bonaire is a wonderful experience for both new and experienced divers. There are hardly any places in the world like Bonaire, where you can park your car anywhere along the shoreline, gear up and walk right in for a great dive, giving divers the opportunity to choose when and where to dive.

With no strong currents, an average of a 100ft/ 30 meters visibility, and water temperatures around 82-degrees F/ 28 C degrees, the crystal-clear waters are pool-like.

All water surrounding Bonaire is protected and the Bonaire national marine park is one of the oldest marine reserves in the world (est. 1979). The healthy reefs, and the abundant marine life offer a playground for divers and snorkelers. Especially macro lovers will have a good time on Bonaire. The ones with good eyes can look for seahorses and frogfish but divers can also spot rays, turtles and an amazing variety of fish species.

About Bonaire

Bonaire is in the southern Caribbean, outside the hurricane belt close to Aruba and Curaçao, which are only respectively 86 and 30 miles (138 and 44 kilometers) away. Consistently rated as one of the top dive destinations in the world and as a pioneer in preserving nature, Bonaire is a dream for every diver.

However, this small boomerang-shaped island also offers a variety of activities for those who do not dive. The eastern mangroves, the “nursery of the reef”, is best discovered by kayak, while on the western part of the island, several caves are open for guided tours to explore this unknown and mystical side of Bonaire. Lac Bay in the south has near perfect windsurfing conditions, making the area ideal for beginners and advanced wind surfers alike, whereas the hilly landscape in the north is every mountain biker’s dream. Klein Bonaire, a small, deserted island a mile off Bonaire’s coast, is well known for its turtle hatching area and beaches.

Constant trade winds from the east ensure a pleasant breeze over the 113.5 square mile (294 square kilometers) island. An average annual rainfall of 22 inches (56 cm), an almost constant water temperature of 80 degrees Fahrenheit (27 degrees Celsius), and a slightly higher air temperature of 82 degrees Fahrenheit (28 degrees Celsius), makes Bonaire a pleasant environment in which to vacation.

But most visitors are attracted by the perfect scuba diving conditions. With as many as 60 officially listed dive sites on Bonaire and another 20 dive sites on Klein Bonaire, the island truly is a Divers Paradise!
